

# Plug and Play Cultural Avatars For Gaming, Virtual Worlds and Mobile Devices

Vcom3D has integrated its Vcommunicator® Studio Authoring Suite, Virtual Human Library and Culture Library with popular interactive 3D platforms including Distributed Virtual Worlds, 3D game engines, online media players such as Flash, and mobile devices such as the iPhone and iPod Touch. Examples are shown in the diagram below. These powerful combinations provide Seamless Solutions for practicing critical missions in authentic cultural context.
